

## **Risking to Trust in Dialogue - 48:00 33:00**

### **Summary of Changes to the CPO O&M in order to conduct a 3RE (Restore, Rekindle, Renew Enrichment)**

As with all the first presentations in a session, a Recap and Question & Answer time precede the main body of this presentation.

The recap might include:

- that last session provided a great view from the spot we had climbed
- that we looked at areas we find difficult to communicate in our relationship, and dialogue helped us with the sharing of our feelings
- that we looked at God's desire for our marriage. We learned that by making the decision to love and be loved we can grow as a result of the challenges set before us. At this point we can begin to see the beautiful view of our life together

During the general Question & Answer time, it is suggested that questions specific to dialogue be held until the end of this session.

The introduction might include reference to the journey up the mountain, which should be getting a lot easier by now. The couples have had four weeks to practice dialogue and have the good news of God's plan to share the load. It is not so steep. We think we will all make it. You are now ready to test your wings. We are on the final approach to the summit. We ask you to trust us – the payoff is great!

It was noticed that WWME's PowerPoint for their 3RE omitted the 2:30 exercise in IV D. Such an omission has been noted in the CPO 3RE, but it has been included (mostly so that the traditional workbook would be most like the 3RE).

A break is recommended before moving on to Impact of Dialogue in our Daily Lives.
